Maywood/American Waste Processing

A site inspection of the above named facility was conducted on October 16, 1984 by Sue Ryan and Dave Curnock. The company operates a waste transfer station and an aerosol can crushing unit. All hazardous waste at the facility is covered under RCRA interim status regulations. There is no evidence that waste material has migrated off-site. Since the waste quantity for HRS use is zero, I recommend that the American Waste Processing facility not be scored.
